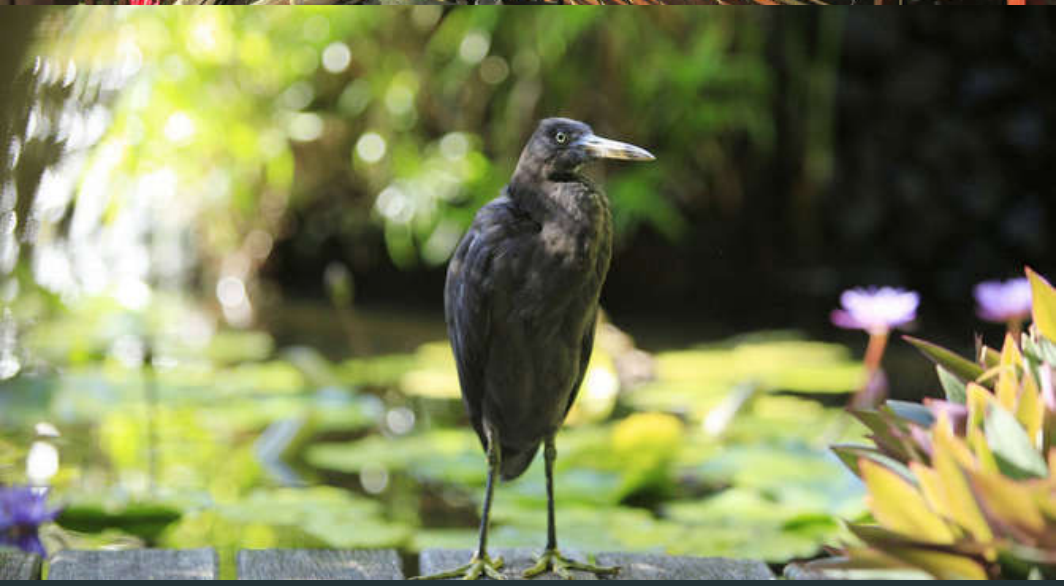
ABOUT SOFITEL BORA BORA MARARA BEACH

The Private Island of Sofitel Bora Bora epitomises the French Art of Hospitality blended with elegance in order to create a unique “tailor made” experience for you and your guests. They will experience the pleasure of feeling at home and the exquisite feeling of being elsewhere.

The Private Island of Sofitel Bora Bora will cosset, pamper and indulge you. We seek only to fulfil all of your desires from a champagne breakfast in the water to a massage on top of the hill to an extraordinary encounter with the marine life as you caress a sting ray and are enthralled by black tip reef sharks gliding by you.



Bora Bora is often called the most beautiful island in the world. This tiny island - just 18 miles in circumference - is encircled by a protective necklace of coral. Breathtaking lush mountains provide a dramatic backdrop for the luminous turquoise, lapis and aquamarine of the sheltered lagoon. There is something truly unique about Bora Bora, with its sugary sands, rugged mountains, vivid blues, lush greens and soothing lagoon waters that make it the most romantic destination in the world and Sofitel truly captures the essence of the island

The Private Island of Sofitel Bora Bora is located with the lagoon of Bora Bora, a separate, small island deeply concerned by the environment and is currently winning its Earthcheck reference. We have created our “Path of Fragrances”, botanical gardens, and protect the marine life in our nearby lagoonarium. Energy, electricity, water and consumption of paper and materials have either been reduced or are recycled.
